Even when not the primary logo, the GCAC logo lockup should appear on every piece of promotional campaign and program collateral.

**Clearance**

Using the scale of the logo to determine clearance will ensure that the logo is honored and legible. Always maintain a minimum clear space around the logo that is equal to the height and width of the inner square.

**Minimum Scale**

Logo smaller than 1.5” must use the solid frame mark. The logo shouldn’t be used at sizes less than 1” tall. If a smaller size is required, use the alternate logo without the inner acronym.

**Logo Color Use**

When used in digital/print media, the GCAC logo color must be in either black or white only.

**Secondary Horizontal Lockup**

This lockup can be used when vertical space is limited and it’s not possible to use the stacked lockup.

**GCAC primary sponsorship use**

If an event or campaign requires its own identity, it must be accompanied by the mark of the parent brand; the GCAC mark has to appear in the layout no smaller than 1/6th of the page.

**GCAC co-sponsorship use**

If an event or campaign shares co-sponsorship, the GCAC mark has to appear in the layout at the same size as the other shared sponsor logos.
